

JAVIER - FRONTEND DEVELOPER

<https://devfjavier.github.io/PORTFOLIO/>

Profile

Junior frontend developer with experience on my own practice projects.

I can do CRUD operations for a REST API and I can do responsive design.

Practice projects

Fictitious ecommerce: It has a shopping cart and it sells cupcakes obtained from an API.

React.js - CSS / SASS

Signal user interface clone: It copies half of the UI, it has the functionality to switch between dark and light themes.

React.js - CSS / SASS

Spotify user interface clone: It copies much of the UI for desktop and mobile, it does not have the functionality to play music.

Next.js - CSS / SASS
