JAVIER - FRONTEND

https://devfjavier.github.io/PORTFOLIO/

PROFILE

Junior frontend developer with experience on my own practice projects.
I can do CRUD operations for a REST API and responsive design.

EXPERIENCE

Fictitious ecommerce: It obtains its products from an API and the user can interact with them in the shopping cart.
React.js - CSS/Sass - Redux

Signal UI clone: It copies half of the UI, it can switch between dark and light themes, and switch between spanish and english languages.
React.js - CSS/Sass - Context API

Spotify UI clone: It copies much of the UI for desktop and mobile, it does not have functionalities to play music.
Next.js - CSS/Sass
